About Kerone

KERONE now renowned name in serving specialized need of customers with best quality and economical process Heating /cooling and drying products, manufactured in high quality environment by well trained and qualified workforce(special purpose machineries) .

KERONE is pioneer in application and implementation engineering with its vast experience and team of professionals. KERONE is devoted to serve the industry to optimize their operations both economically and environmentally with its specialized heating and drying solutions.

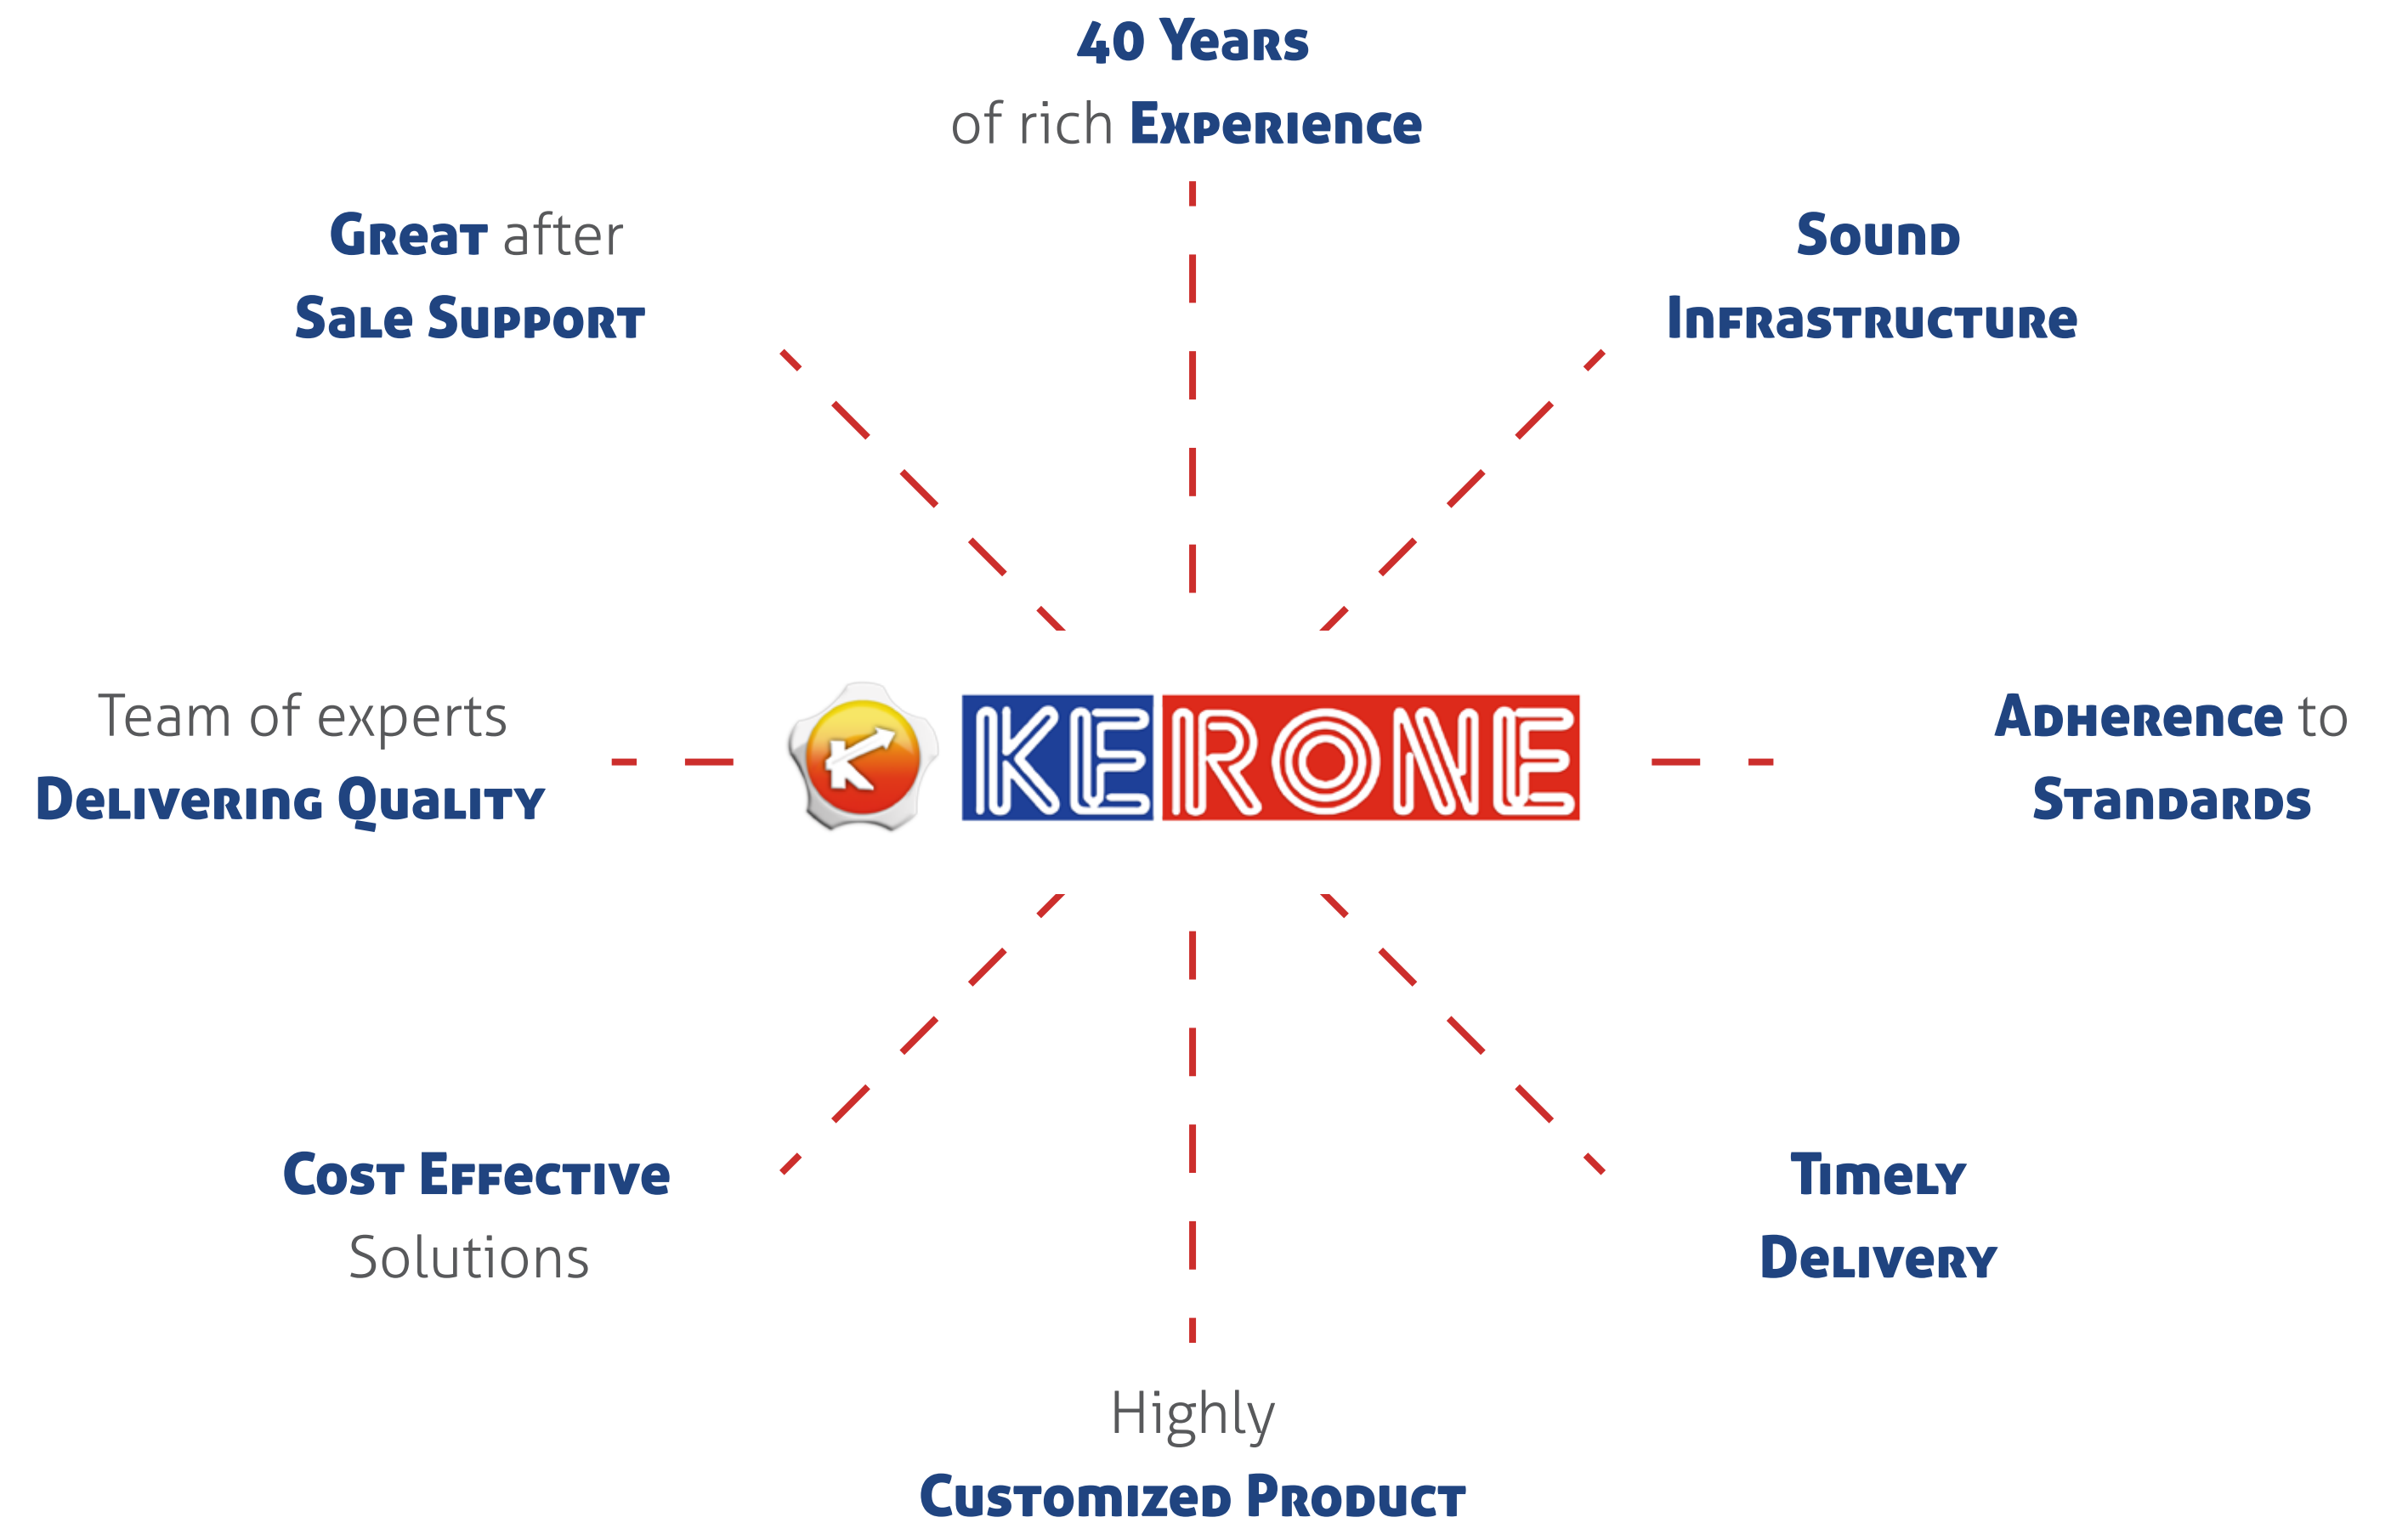

“Enhance the value of customer operation through our customer need centric engineering solution”

Mission

- To enhance the value of customer operation through our customer need centric engineering solution.
- We are committed to provide our customers, unique and best in class products in Industrial heating, drying and cooling segment, with strategic tie-up for the technical know-how with renowned leader in the industry specific segment.

Vision

- Turn into world leader in providing specialized, top-notch quality and ecological industrial heating, cooling and drying solution across the globe.
- To attain global recognition as best of quality and environment friendly engineering solution company.

Introduction to Portable Infrared Heating Systems

Portable infrared heaters those are designed in KERONE is to provide the highest performance in very compact size, as the term portable define the portable infrared heater as easily movable and can be best choice for the small household application or commercial applications.

Since the portable infrared heating system is used only for small application hence the proper choice of infrared radiator becomes critical so that it should not overheat the surrounding.

They are much more effective than regular electric space heaters, safer, and are much less expensive to operate

Applications

- Save up to 50% in heating costs
- Enhance your health
- Reduce allergens and pollution
- Improve the comfort of your home
- Safe heating - no flames, fumes or carbon monoxide
- Overheat safety shut-down
