About ADC

The 10th Asia Pacific Drying Conference (ADC) will be held in Vadodara, India during December 14-17, 2019. The ADC series of biennial conferences was established in 1997 by Prof. A. Kamaruddin of Bogor University, Indonesia and Prof. Arun S. Mujumdar of McGill University, Canada. It is modelled after the widely acclaimed biennial International Drying Symposium Series (IDS) which was initiated in 1978. The conference venue has since moved to several countries including China (2 times), Malaysia (2 times), India, Thailand, Hong Kong etc. The 10th ADC in 2019 plans to bring together more than 300 stakeholders, from research organizations, academic institutions, non-governmental organizations, industries and professional associations, in a single platform for exchange and dissemination of ideas and recent research findings on fundamentals and applications of drying. The conference is being organized by National Institute of Technology Rourkela, India with major support from diverse industries in Gujarat and other states in India.

National Institute of Technology Rourkela

National Institute of Technology (NIT) Rourkela is an institution of national importance funded by Ministry of Human Resource Development. NIT Rourkela was established as Regional Engineering College (REC) on August 15, 1961. It is one of the premier national level institutions for technical education in the country. The main objective of the institute is to produce quality engineers and scientists in

graduate, post-graduate and doctoral levels in various branches of Engineering and Science. NIT Rourkela was ranked 601-800 in the world by the Times Higher Education World University Rankings of 2018 and 126th in Asia. In India, it was ranked 15 among engineering colleges by the National Institutional Ranking Framework (NIRF) in 2018.

August 10, 2019	Final notification of manuscript acceptance	
October 31, 2019	Deadline for early bird registration	
November 30, 2019	Final deadline for registration	
December 14-17, 2019	Conference	

The online abstract submission form will be available from March 15, 2019 on www.adc-2019.org

Topics

Fundamentals, modelling and simulation

Physical properties and product quality

Industrial processes and equipment

Measurement and process control

Process intensification

Drying of gases and liquids

Drying of powdered solids

Drying of biomass for energy applications

Energy and environmental issues

Drying of food and agricultural materials

Drying of biological and pharmaceuticals materials

Drying of chemicals and polymers

Drying of wood, pulp and paper, and forest products

Integration of drying with other unit operations

Osmotic dehydration and dewatering

Novel drying technologies, R&D opportunities

Special Session on Drying Industry-Academia Research Collaboration

Local Organizing Committee
