About Kerone

KERONE now renowned name in serving specialized need of customers with best quality and economical process Heating /cooling and drying products, manufactured in high quality environment by well trained and qualified workforce(special purpose machineries) .

KERONE is pioneer in application and implementation engineering with its vast experience and team of professionals. KERONE is devoted to serve the industry to optimize their operations both economically and environmentally with its specialized heating and drying solutions.

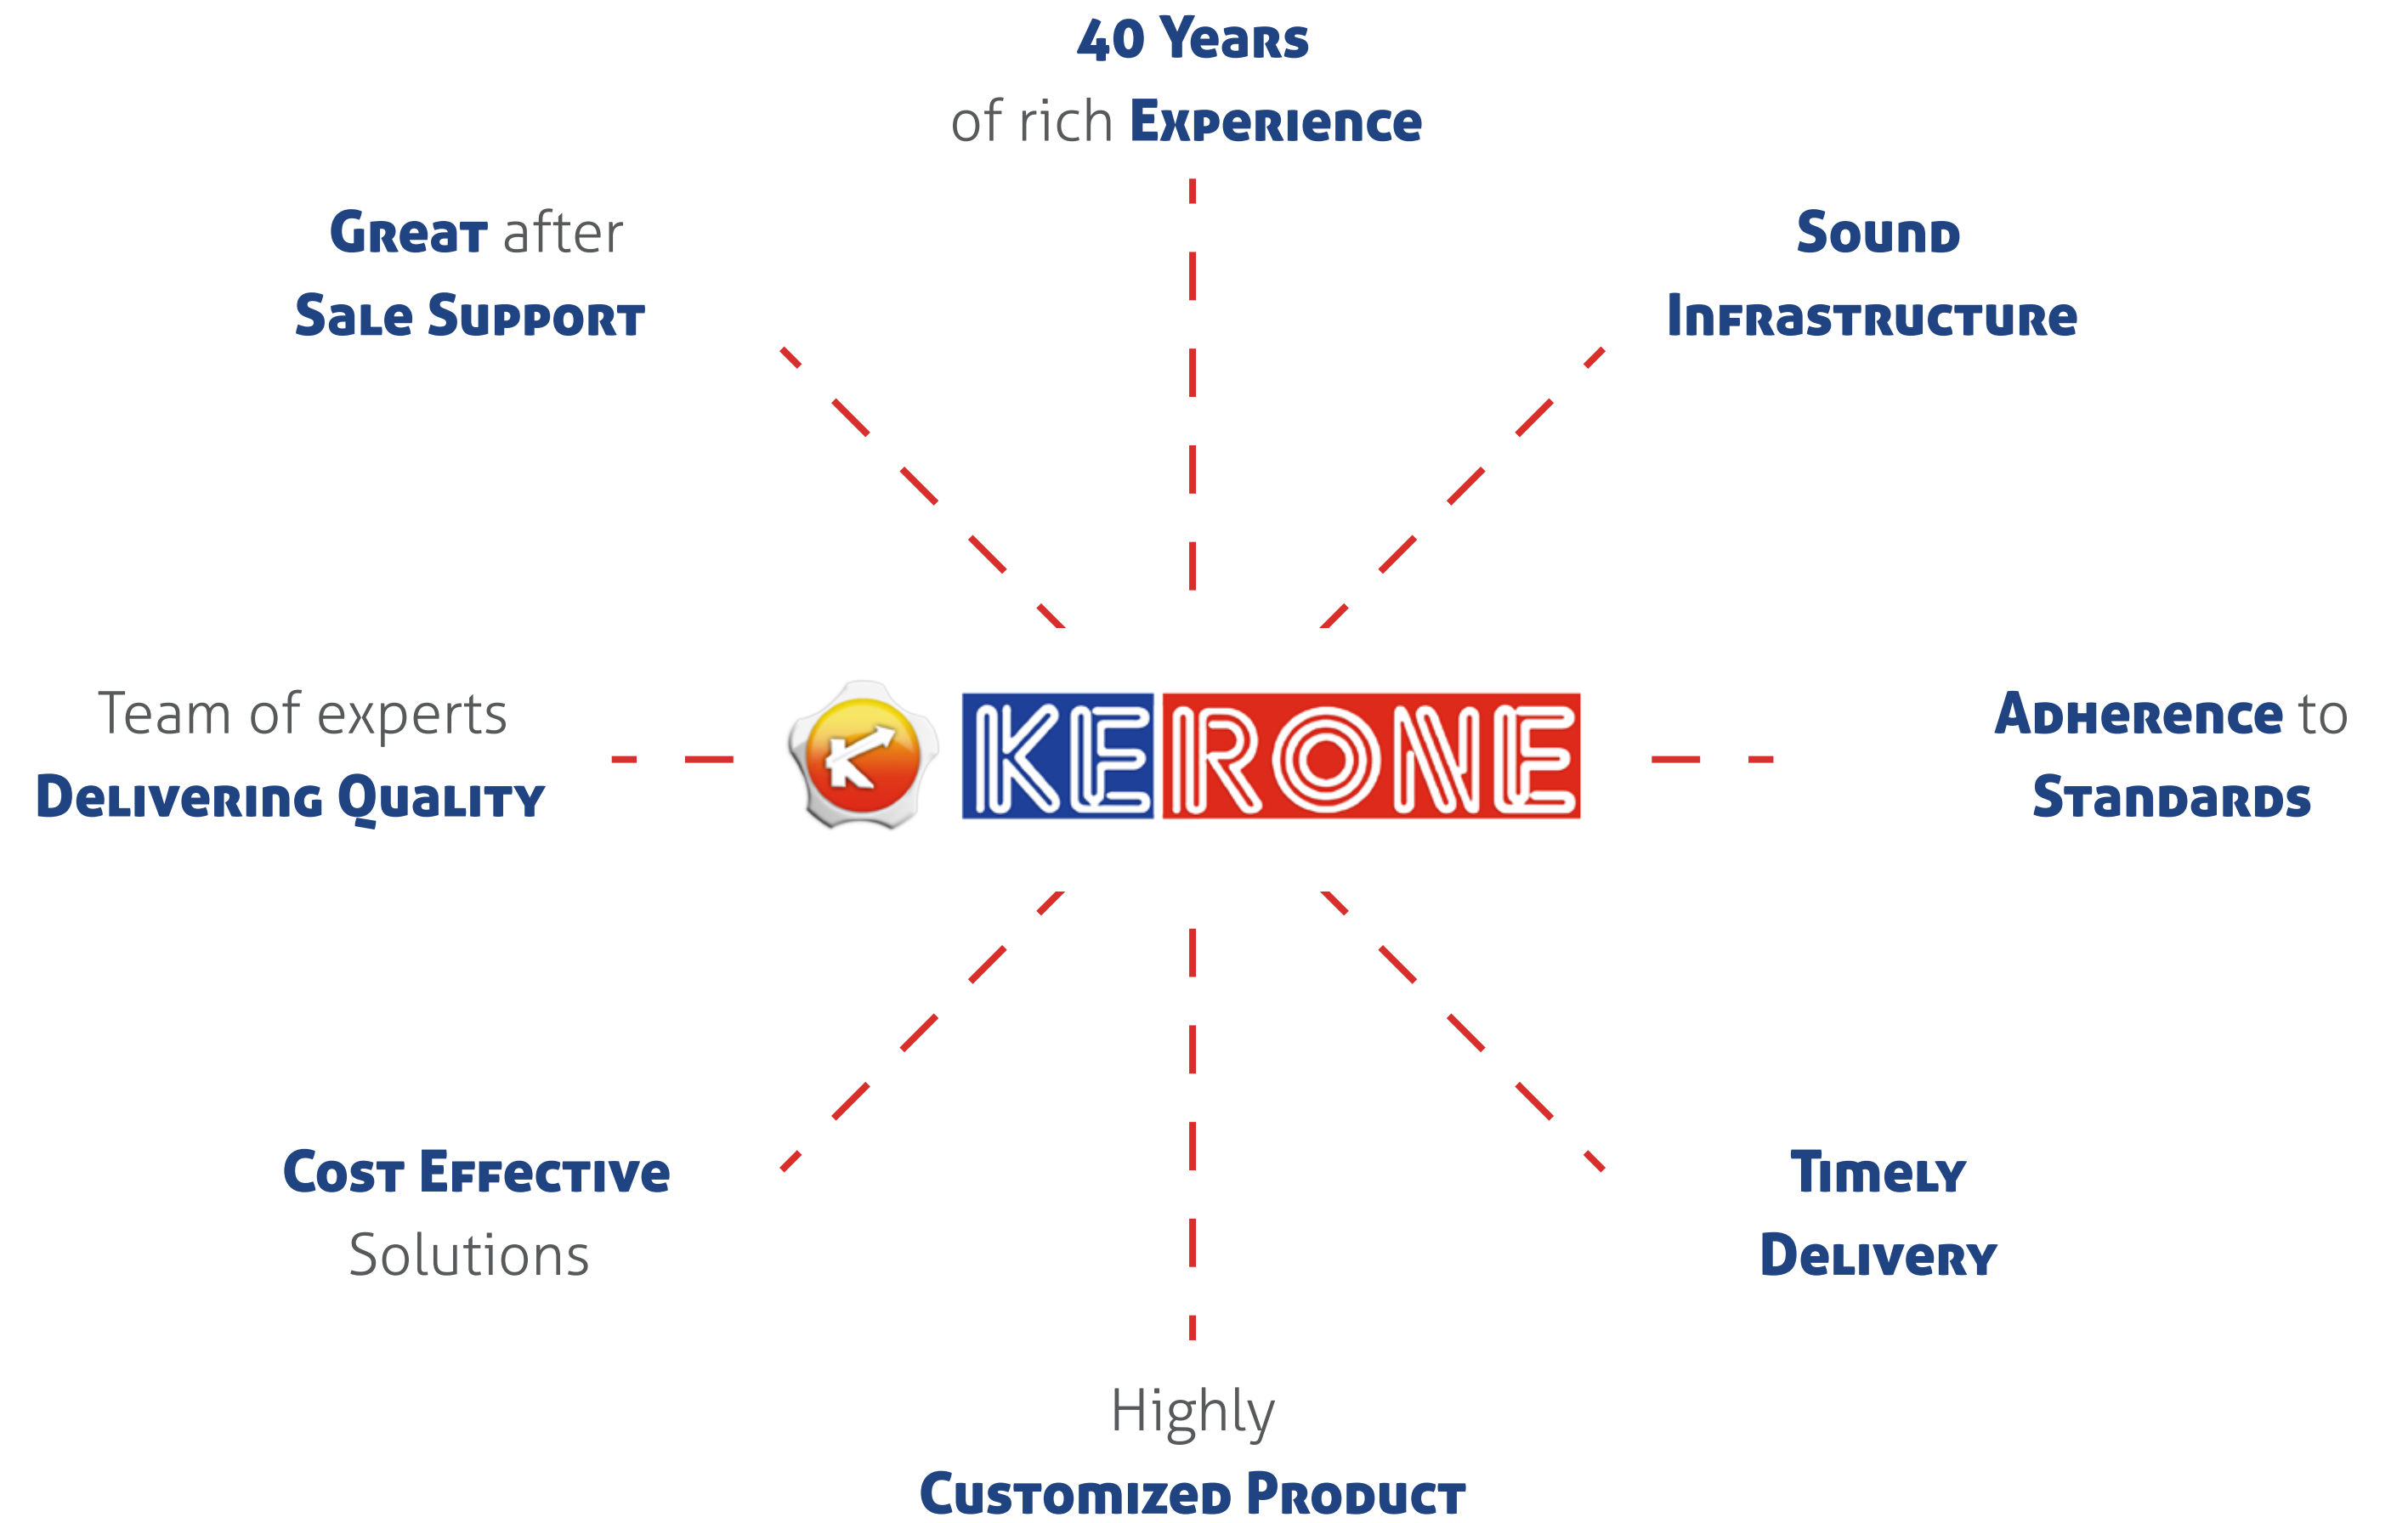

“Enhance the value of customer operation through our customer need centric engineering solution”

Mission

- To enhance the value of customer operation through our customer need centric engineering solution.
- We are committed to provide our customers, unique and best in class products in Industrial heating, drying and cooling segment, with strategic tie-up for the technical know-how with renowned leader in the industry specific segment.

Vision

- Turn into world leader in providing specialized, top-notch quality and ecological industrial heating, cooling and drying solution across the globe.
- To attain global recognition as best of quality and environment friendly engineering solution company.

Introduction to Ceramic Infrared Heaters

Kerone is the leading producers of the best quality infrared equipments and heaters. Latest technology and in-depth research has gone into making equipments with the quality standard that fulfils the customers' needs. The Ceramic Infrared Heaters are by a firmly burnt-in heating coil to deliver maximum heat energy.

Highly heatproof resistance wires has been used to protect the equipment from damage and the resistance of the heater remains constant over the varied temperature range. This gives a longer life to the equipment. The quality glaze used in the heater has excellent radiation properties leading to very high radiation efficiency.

Ceramic Infrared Heaters are available with colour changing feature as Yellow Ceramic IR Heater (CC FSR)
