

# FISH DRYER

48<sup>+</sup> Years  
Of experience

In Association with SVCH-Technologii, Moscow (Russia)  
ISO 9001:2015 | ISO 14001:2015 | ISO 45001:2018

# ABOUT US

KERONE is now renowned for serving the specialized needs of customers with the best quality and economical process of application engineering solutions and industrial heating products manufactured in a high-quality environment by a trained and qualified workforce (special purpose machinery)

KERONE is a pioneer in application and implementation engineering with its vast experience and team of professionals.

KERONE is devoted to serve the industry to optimize its operations both economically and environmentally with its specialized process engineering solutions.

KERONE is having immense expertise in manufacturing and implementing various types of engineering solutions.

KERONE is possessing employee strength of more than 280+ experts continuously putting efforts for happy industrial engineering solutions

48+ Years Manufacturing Excellence

Great Sale Support

Highly Customized Product

Adherence to Standards

Sound Infrastructure

Team of experts Delivering Quality

Timely Delivery

Cost Effective Solutions

# WHY CHOOSE US

"Choose Kerone for innovative solutions tailored to your unique product needs, ensuring efficiency, reliability, and unmatched quality."

With decades of expertise, cutting-edge technology, and a customer-centric approach, Kerone Engineering offers tailor-made Applications Engineering solutions that prioritize quality, flexibility, and cost-effectiveness. Benefit from our commitment to excellence, post-sales support, and innovative solutions for your unique Applications Engineering needs. Choose Kerone Engineering for reliability, performance, and unmatched value.

## MISSION

To enhance the value of customer operation through our customer need centric engineering solution.

We are committed to providing our customers with unique and best-in-class products in the industrial thermal processing segments. Through strategic tie-ups for technical know-how with renowned leaders in industry-specific segments, we ensure that our offerings meet the highest standards of quality and innovation.

## VISION

Turn into a world leader in providing specialized, top-notch quality and ecological industrial heating, cooling, and drying solutions across the globe.

To attain global recognition as the best of quality and environment-friendly engineering solution company.

Enhance the value of customer operation through our customer need centric engineering solution.

# TRUSTED PARTNERS

## Fish Dryer

Fish dryers, available in various sizes and capacities, cater to the needs of both commercial enterprises and small-scale fish processing businesses. Their versatility optimizes fish product storage and transportation, contributing significantly to the seafood sector's sustainability and food safety goals. Equipped with advanced temperature and humidity controls, these machines utilize heat and airflow synergistically to extract moisture from fish while maintaining optimal product quality, thwarting mold, pollutants, and bacterial growth.

In the food processing industry, fish dryer machines serve as indispensable equipment for preserving fish by eliminating moisture. By swiftly and evenly drying fish, these innovative tools prolong shelf life and retain nutritional content. Specifically designed for drying fish, these appliances are pivotal in preventing spoilage and extending shelf life, making them indispensable in ensuring food quality and safety.

### Features

- Adjustable Temperature Control
- Digital Timer
- Uniform Air Circulation
- Multiple Drying Racks or Trays
- Stainless Steel Construction
- Overheat Protection

- Digital Display
- Energy-Efficient Design
- Ventilation System
- Easy Cleaning and Maintenance

### Advantages

- Extended Shelf Life
- Consistent Particle Size and Composition
- Improved Hygiene
- Consistent Drying
- Preservation of Nutrients
- Energy Efficiency
- Time Efficiency
- Scalability
- Reduced Spoilage
- Controlled Processing

### Application

- Industrial-scale drying for large quantities.
- Preserving fish for local consumption or small businesses.
- Extending shelf life by removing moisture.
- Preparing fish for export markets.
- Processing dried fish into snacks or powders.
- Empowering local communities with fish preservation capabilities.

# THANK YOU
