About Kerone

KERONE now renowned name in serving specialized need of customers with best quality and economical process Heating /cooling and drying products, manufactured in high quality environment by well trained and qualified workforce(special purpose machineries) .

KERONE is pioneer in application and implementation engineering with its vast experience and team of professionals. KERONE is devoted to serve the industry to optimize their operations both economically and environmentally with its specialized heating and drying solutions.

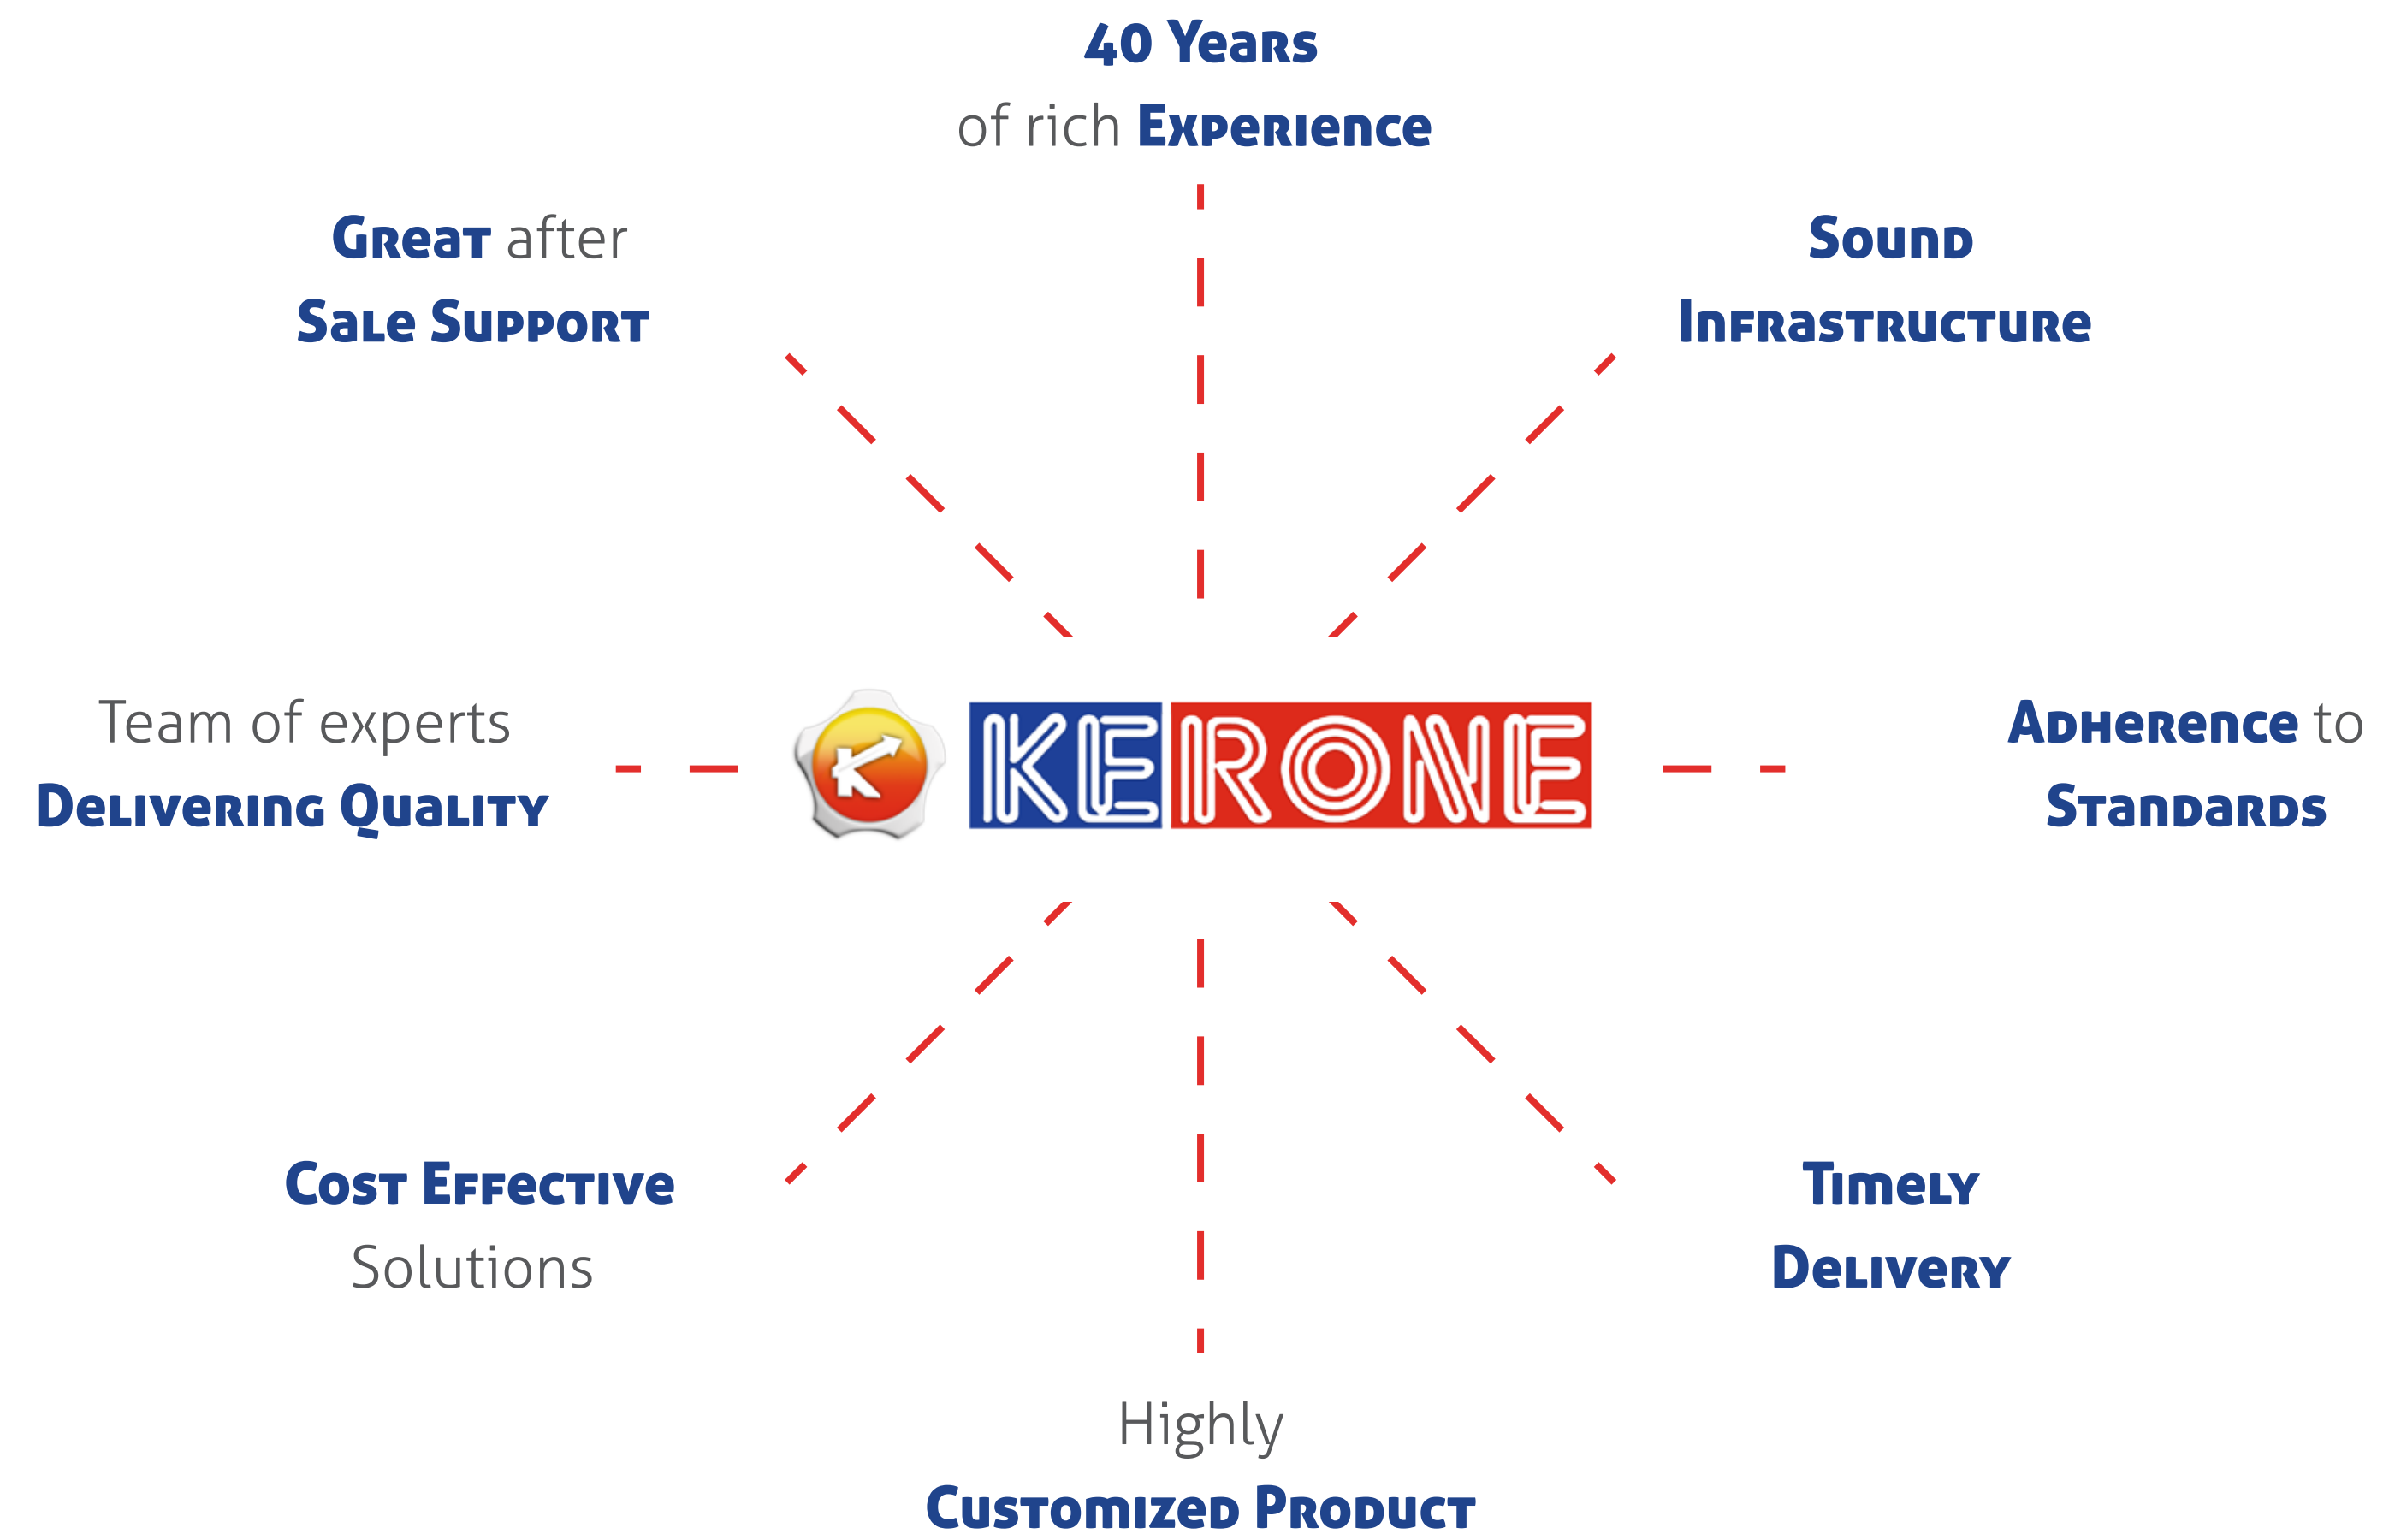

“Enhance the value of customer operation through our customer need centric engineering solution”

Mission

- To enhance the value of customer operation through our customer need centric engineering solution.
- We are committed to provide our customers, unique and best in class products in Industrial heating, drying and cooling segment, with strategic tie-up for the technical know-how with renowned leader in the industry specific segment.

Vision

- Turn into world leader in providing specialized, top-notch quality and ecological industrial heating, cooling and drying solution across the globe.
- To attain global recognition as best of quality and environment friendly engineering solution company.

Introduction to Gas Fired Hot Air Generator

Gas Fired Hot Water Generators/Gas Fired heaters are Hot water Heaters is an exceptionally smaller completely programmed bundled boiling hot water generator in prepared to introduce condition and might be introduced where ever space is accessible. It doesn't require any unique room like evaporator house. It falls outside the domain of Indian Boiler Regulations.

It is efficient system which conveys high temp water much quicker than another ordinary system.

System is available in wide range of heat output from 70,000 kcal/hr. to 10,00,000 kcal/hr., to provide output of 1250 ltrs/hr. to 18,200 ltrs/hr. of hot water at about 65c temperature.
