About Kerone

KERONE now renowned name in serving specialized need of customers with best quality and economical process Heating /cooling and drying products, manufactured in high quality environment by well trained and qualified workforce(special purpose machineries) .

KERONE is pioneer in application and implementation engineering with its vast experience and team of professionals. KERONE is devoted to serve the industry to optimize their operations both economically and environmentally with its specialized heating and drying solutions.

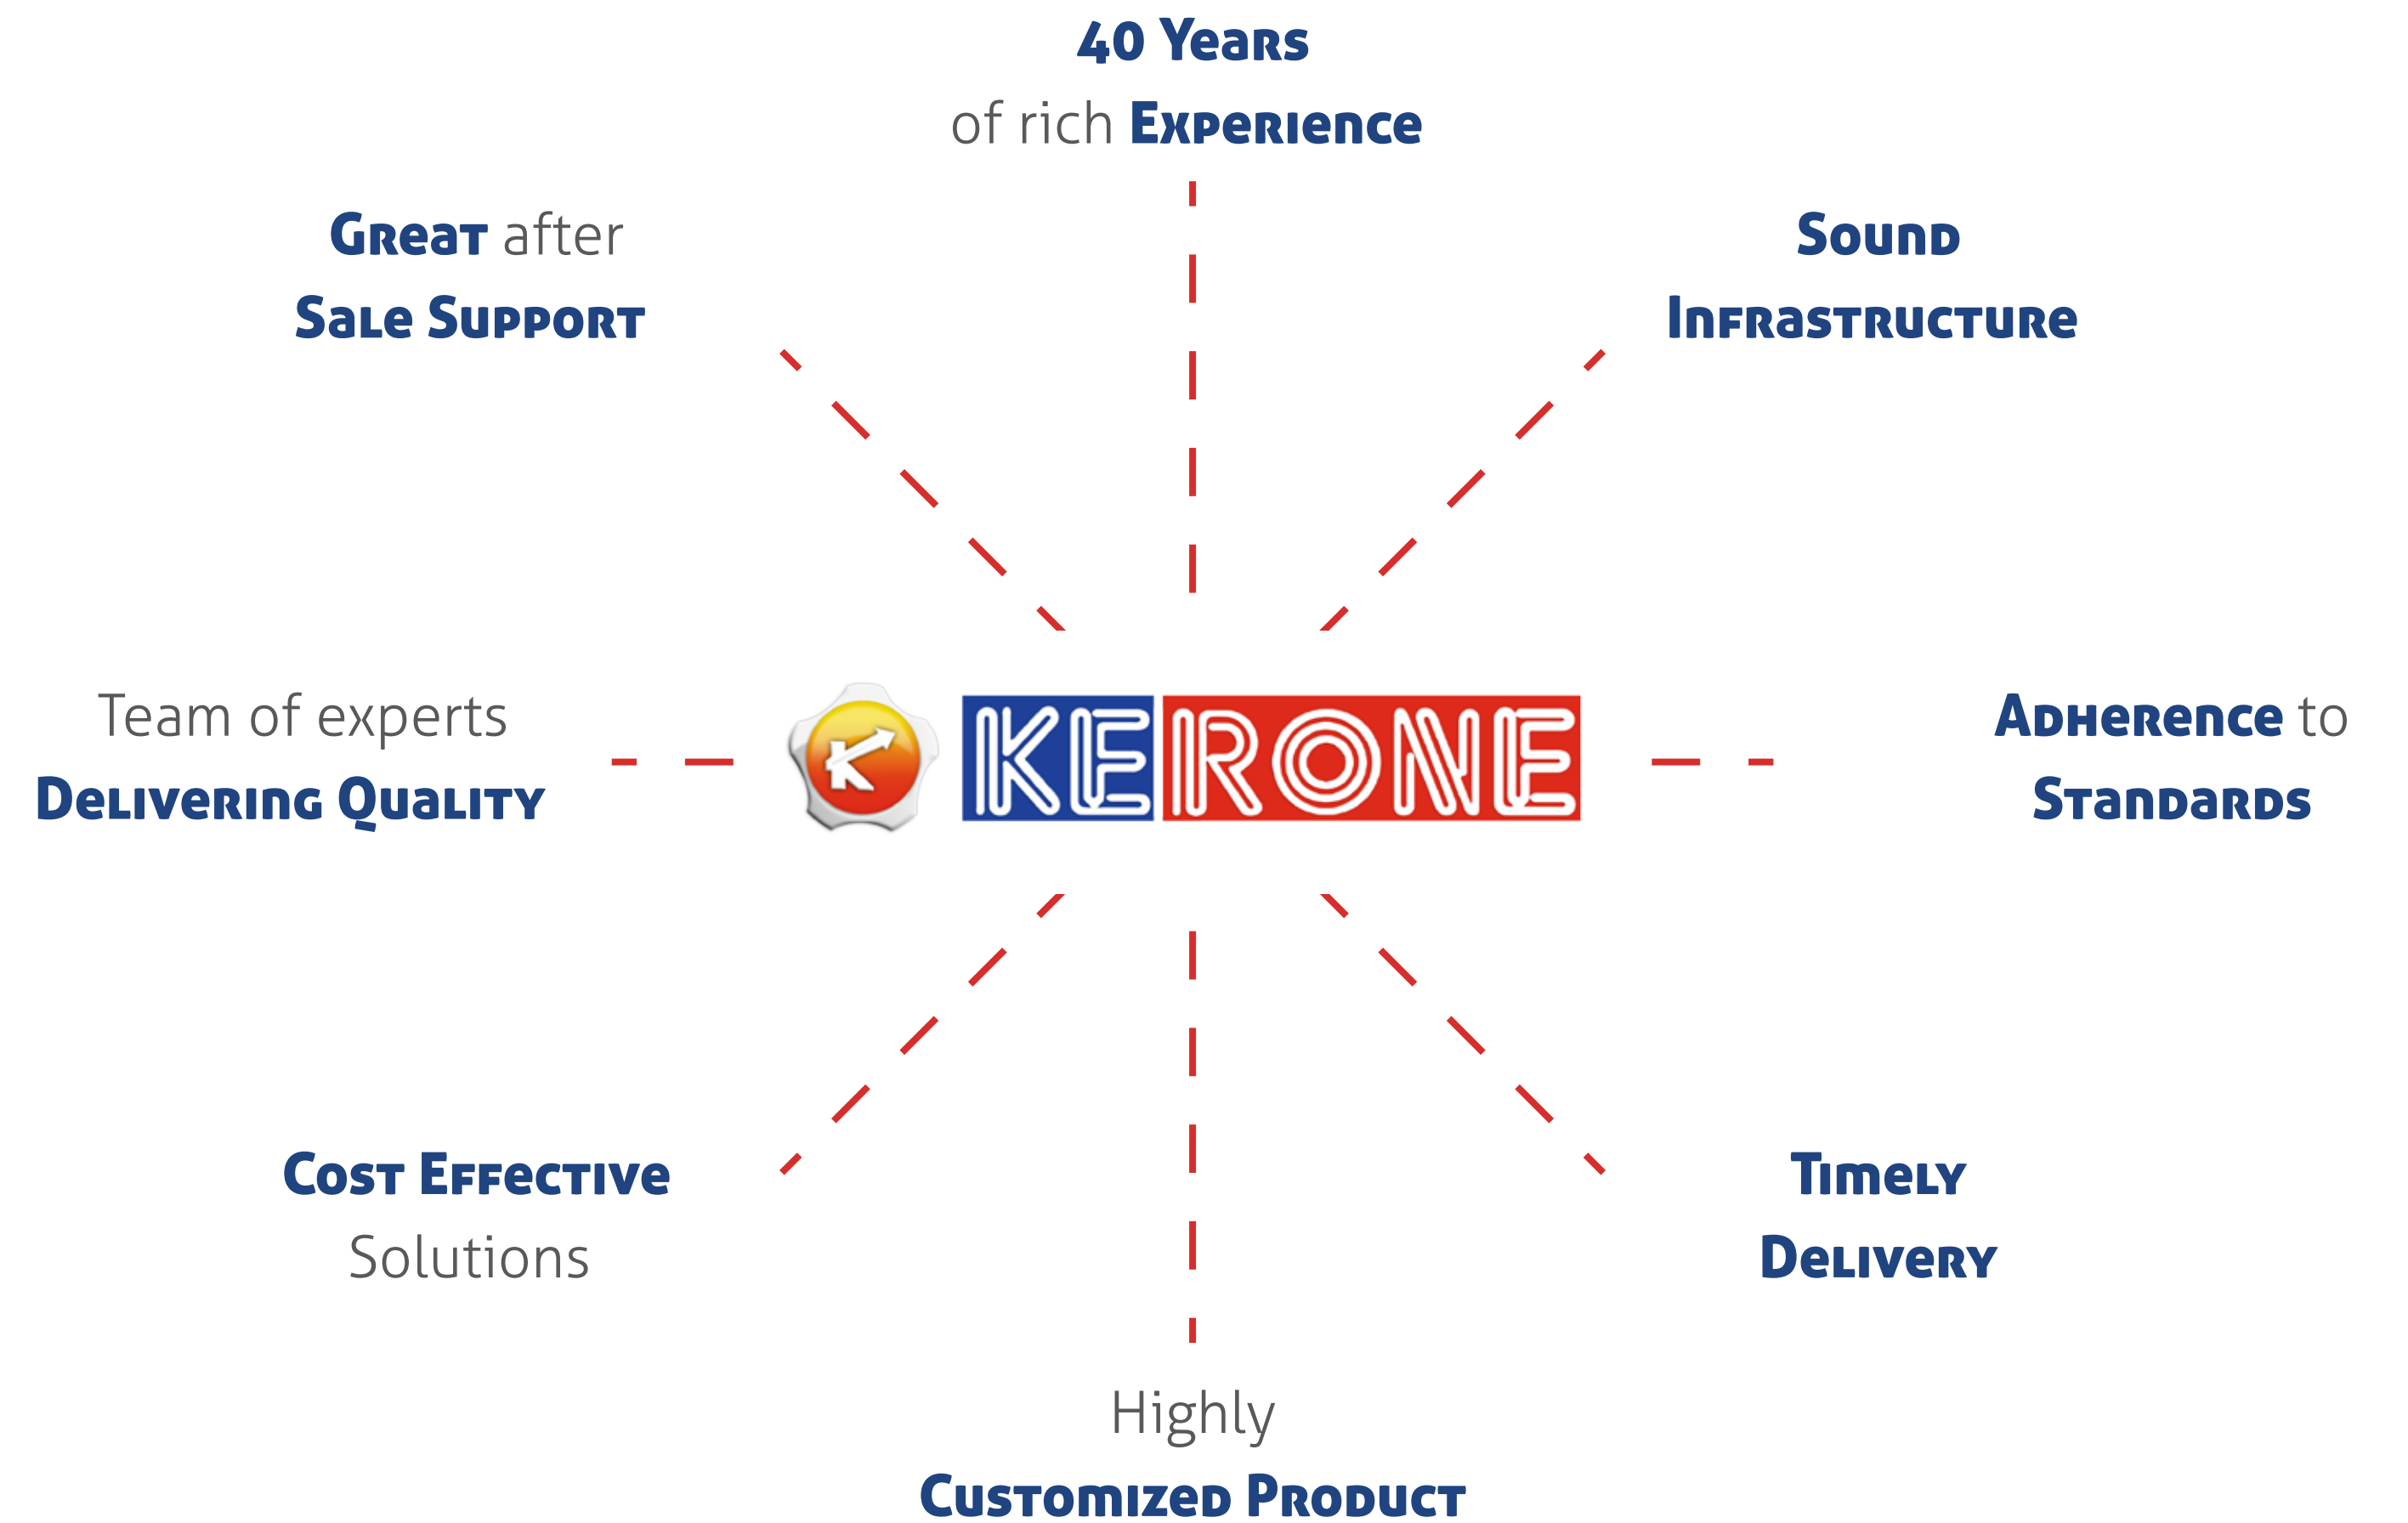

“Enhance the value of customer operation through our customer need centric engineering solution”

Mission

- To enhance the value of customer operation through our customer need centric engineering solution.
- We are committed to provide our customers, unique and best in class products in Industrial heating, drying and cooling segment, with strategic tie-up for the technical know-how with renowned leader in the industry specific segment.

Vision

- Turn into world leader in providing specialized, top-notch quality and ecological industrial heating, cooling and drying solution across the globe.
- To attain global recognition as best of quality and environment friendly engineering solution company.

Introduction to Web Dryer

We at KERONE design, manufacture and export across world various kind of web dryers having customized specification such as wavelength of Infrared, Roller/conveyor speed, formation of temperature zones to fit into your Web drying process requirement, web dryers are designed with the superior quality Infrared (IR) radiator with digital control electronics, Infrared Web Dryer (IR web Dryer) is a specialized dryer which is more suitable for processing of thin layers of materials such as paper drying, fabric and coated filaments of multiple types, films and even many type of food or snack products and many more.

Features

- Light weight construction.
- Modular construction. Capacity additions are possible.
- Easy to install and operate. In most cases can be easily supported from the existing structure.
- Superior quality of wiring system specially designed longer operating life
- Air handling system engineered to improve the performance by effective heat recovery and exhaust.
- Web dryers are having digital keypad with digital display.
